

# Webinar Series on College-Workforce Research

## A Discussion w/Amanda Chase on The Impact of Identity and Social, Economic, and Cultural Capital on College Student Internship Engagement

Wednesday, January 27, 2021, 11am CST (US)

In this webinar, Dr. Amanda Chase of the University of Vermont will talk with CCWT Researcher Dr. Zi Chen on the impact of identity, social, economic, and cultural capital on college Internships. Though lacking access to internships may seem like a mere inconvenience, internships are often the gateways into particular careers and industries. If certain groups of students are excluded from internships on the basis of income, race/ethnicity or social connections, then the experiences and perspectives of too many college students will not be represented in the nation's companies, organizations and government agencies.

**Dr. Amanda Chase** coordinates internships for the University of Vermont in the Career Center and the University's new Office of Engagement. Her research interests are focused on issues of access and equity in internships and experiential learning. She wrote a quantitative doctoral dissertation on this topic and earned her Ed.D in May 2020.

Webinar host: Dr. Zi Chen,  
CCWT Assistant Researcher

Special Guest: Dr. Amanda  
Chase, Internship Coordinator  
for the University of Vermont

**The Center for Research on College-Workforce Transitions (CCWT)** is an initiative of the Wisconsin Center for Education Research (WCER). CCWT's mission is to conduct and support research, critical policy analysis, and public dialogue on how college students experience the transition to the workforce. CCWT strives to inform policies, programs, and practices that promote academic and career success for all learners.
